

Welcome Message

My dear students,

Welcome to the new phase of your journey of secondary education (Classes XI & XII). These next two years are perhaps the most pivotal in your academic as well as your personal life. You are no longer just students; you are young adults preparing to specialize and take your place in a competitive global landscape in particular and social in general.

This stage of education is about **refinement**. The Board is committed to provide you with the rigorous academic course curricula and the specialized resources you need to excel. To support this, we have provided the link of the **career guidance App, My Career Advisor by Ministry of Education, Govt. of India and Samagra Siksha, Assam in ASSEB website (www.ahsec.assam.gov.in)**. **Just by clicking the link, you can ponder into the vast arena of career and I hope it will help you in determining your career.** We advise you not to just choose a career but to understand your strengths and interest and navigate your path with confidence and clarity.

My Career Advisor by Ministry of Education:

Furthermore, we recognize that the modern world demands more than just textual knowledge. That is why we are prioritizing **skill education**. Alongside your core subjects, you will have opportunities to develop practical, hands-on skills—from digital proficiency to creative problem-solving—that ensure you are 'job-ready' the moment you pass. Further, the study of skill subject from Group C will also help you to attain an additional skill certificate recognized by National Council of Vocational Education and Training. So, do not opt a subject just to get marks in examination or to pass in final examination, choose the subject with utmost care so that it may also bring a good opportunity in your future. Before selecting of the subjects go through the syllabus of the subject as available in ASSEB website (www.ahsec.assam.gov.in).

Again, as per the decision of the Education Department, Govt. of Assam the Online courses of the Infosys Spring Board has been made available at free of cost. The highly time demanding online courses will also help in educate yourself in the present day digital world. All are requested to go through the following link and join the courses.

As you embark on this path, always remember the words: **'Education is the passport to the future, for tomorrow belongs to those who prepare for it today.'**

Congratulations on reaching this milestone. Let's work together.

(R C Jain, IAS Retd.)
